

# HOW DO I KNOW IF I AM RUNNING 32BIT OR 64BIT.

## DETERMINE WINDOWS OPERATING SYSTEM (i.e. WindowsXP, Windows Vista, Windows7)

From the bottom left hand corner of the screen, click “Start” or the start icon . If you immediately see a Search Box, type “winver” and then press Enter. If you do not immediately see a Search Box, click Run and type “winver”, then click OK.

My Operating System Version is \_\_\_\_\_ .

## DETERMINE IF OPERATING SYSTEM IS 32BIT OR 64BIT

### Windows 8 or higher Users

64bit is the standard for all Windows 8 or higher systems.

### Windows Vista or Windows 7 Users

1. Click **Start** , type **system** in the **Start Search** box, and wait momentarily.
2. Now click **system** in the **Programs** list.
3. The operating system is displayed as follows:
  - For a 64-bit version operating system: **64-bit Operating System** appears for the **System type** under **System**.
  - For a 32-bit version operating system: **32-bit Operating System** appears for the **System type** under **System**.

### Windows XP Users

1. Click **Start**, and then click **Run**.
2. Type `sysdm.cpl`, and then click **OK**.
3. Click the **General** tab. The operating system is displayed as follows:
  - For a 64-bit version operating system: **Windows XP Professional x64 Edition Version <Year>** appears under **System**.
  - For a 32-bit version operating system: **Windows XP Professional Version <Year>** appears under **System**.

**Note** <Year> is a placeholder for a year.

My computer system is 32-bit  64-bit.

If you were not able to determine the operating system version or bit count, unfortunately this content cannot help you any further. As a next step, you might want to ask someone for help, or you might want to visit the Microsoft ® Web site for additional assistance.
